IN A SNAPSHOT

Diligent, driven and highly analytical, I see myself as someone who thrives in collaborative environments, while also being fully capable of working independently whenever necessary.

I am a student in the master's program in statistics at ULB, and also a pianist and music teacher. I keep a GitHub account with past university projects, as well as personal development projects. During my bachelor's at VUB I performed sentiment analysis (using the roBERTa model) on data scraped from Twitter, had a summer student job in data visualization, and was a student-assistant in Calculus and Linear Algebra courses for one year. I graduated from my bachelor's summa cum laude and currently maintain a 18.6 average GPA for my master's.

My key interests are in the fields of mathematical statistics, data science, machine learning, design of experiments, macroeconomics and computer programming.

EDUCATION

MSc in Statistics — Université Libre de Bruxelles (ULB)

From 2023. Expected graduation: July, 2025.

Relevant courses: Graduate Statistics(19/20), Time Series (19/20), Mathematical Statistics II (18.5/ 20), Mathematical Statistics I (19/20), Multivariate and High-Dimensional Statistics (19/20), Regression Models (17/20), Méthodes de Sondage (17.5/20).

Ongoing: Algorithms for Big Data, Big Data: Distributed Data Management and Scalable Analytics, Statistical Foundations of Machine Learning, Inférence Robuste, Méthodes Non-Paramétriques, Analyse Statistique Multivariée, Topics in Probability Theory.

BSc in Business Economics — Vrije Universiteit Brussel (VUB)

Graduated in 2023. Specialization in Business and Technology.

GPA: 17.2/20 (with **greatest distinction** – *summa cum laude*).

Completed the ES excellence program.

Relevant courses: Econometrics (20/20), Advanced Mathematics (20/20), Mathematics II (20/20), Mathematics I (20/20), Corporate Finance (20/20), Statistics II (19/20), Statistics I (19/20), Business Information Systems (17/20), Introduction to Microeconomics (17/20), Intermediate Microeconomics (17/20), Introduction to Macroeconomics (18/20), Intermediate Macroeconomics (16/20), IT Modeling and Economics (16/20).

Data Science Specialization — Coursera – John Hopkins University

Completed courses: The Data Scientist's Toolbox, R Programming, Getting and Cleaning Data.

MA in Music, Piano — Koninklijk Conservatorium Brussel

Graduated in 2019.

BA in Music, Piano — University of São Paulo

Graduated in 2014.

Awarded a one-year FAPESP Research Fellowship for my project on the formal analysis of Debussy and Messiaen Préludes.

Relevant courses: Music Analysis I (10/10), Music Analysis II (10/10).

🧰 SELECTED WORK EXPERIENCE

Student Job — Vrije Universiteit Brussel

One-month research project, supervised by Prof. Vincent Ginis, exploring data visualization of music. I analyzed the formal structure of pieces of music, based on Martin Wattenberg's "The Shape of Song" project and its implementation of arc diagrams using suffix trees.

From July to August, 2022.

Mathematics Student-Assistant — Vrije Universiteit Brussel

As part of the Excellence program in my Bachelor's, I helped the Mathematics professors with weekly exercise sessions for the Mathematics I and Mathematics II courses of the VUB Business Economics bachelor program.

From September 2021 to June 2022.

Piano Teacher — BRIMA - Brussels International Music Academy[1]

From 2020 until 2023.

Piano Teacher — Cap sur la Musique

From 2018 until 2021

⚒ SKILLS

- Programming Languages:

  - **Python**
    (numpy, pandas, matplotlib, statsmodels, scipy, scikit-learn)
  - **R** (ggplot2, dplyr)
  - **Mathematica**
  - **C** (I wrote programs in C with approximately 300 lines of code.)

- Git
- Microsoft: Access, Excel, Power BI, Project, Visio
- LaTeX
- Linux (Ubuntu)

🅰 LANGUAGES

- Portuguese (Fluent – Native)
- English (Fluent – Bilingual)
- French (Professional – B2)
- German (Beginner – A2)
- Chinese Mandarin (Beginner – HSK 2)

🏃 ACTIVITIES

During the year of 2011, I did volunteer work for Crea+, an NGO dedicated to giving reinforcement mathematics lessons to children from public schools in São Paulo, Brazil.

Other Interests: Board games, ping-pong, swimming, jazz, early music, cycling, Chinese and Japanese cuisine.

---

[1]The school changed name in 2022. It was previously known as the École de Musique Tchaikovsky.
